D                Em        A
We are here to praise you
                     D
Lift our hearts and sing
                Em
We are here to give you
    A                 D     D7
The best that we can bring.

               G    A
And it is our love
                 F#m   Bm
Rising from our hearts
            Em             A
Everything within us cries
     G  D
Abba father.
                G       A
Help us now to give you
                F#m  Bm
Pleasure and delight
                    Em
Heart and mind and will
        A            D
That say, I love you Lord.
